

# SMART TRADER

Provides More Time for Business

Smart Trader - A Product of G-TECH

## ABOUT G-TECH:

G-TECH is a business solution provider using state-of-the-art technology which is relevant and user friendly. Our competitive advantage is that we develop the solution of the businesses we know as back of our hand. Consequently we have developed solution for Auto Dealers, Textiles, Traders and Service providers. Our project team includes both the business managers and IT experts so that the solutions are value adding, result in high efficiency and cost saving. We work closely with our clients till implementation so that only they say "WOW" not us.

In today's highly competitive and ruthless world, cost, cycle times and responsiveness are important factors to sustain in the world of business. Ironically our own complicated business processes get us bogged down in fire fighting, diverting our focus from business.

At G-TECH our efforts are geared to get our clients back to business and that is why our mission is "To let customers mind their own business"

## ABOUT SMART TRADER:

Traders operate in a fast moving business environment and need a system which gives them "Real Time" information. Smart Trader allows you to manage your business through up-to-date information as you need it. Both enquiries and orders are easily tracked, from the time of the initial enquiry right through till shipping and despatch of orders. Powerful Task Automation facilities exist, such as for following up on enquiries or sending invoices.

Smart Trader has been meticulously designed by highly experienced and competitive team putting relentless effort with great attention to details. Our in-depth understanding of the needs of Traders has produced a solution which will enable you to prosper in today's demanding business climate. We have the experience and knowledge to help you maximise your investment with a trouble-free implementation, backed by high caliber training and support. This soft ware is highly user friendly which can be used by senior managers, accountants and by office staff with effortless ease. This complete solution is a great tool for all users providing information in real time to respond to customer and to make strategic decisions. Smart Trader is an ideal solution for any Trader.
